## Young kirtan artist Eddy Nataraj is blazing a trail of super positive energy and great music!

If you haven't had a chance to see Eddy Nataraj, you might want to put it on your list of things to do...

With kirtan and yoga becoming more and more popular every year, the yoga community is welcoming some wonderful new faces onto the scene. Eddy is one of these new bright faces, bringing a fresh and very unique style of kirtan chanting to the table.

First of all, his guitar playing is masterful.(not something you would typically expect from a chant artist) From spanish flamenco finger-styles, to Jimi Hendrix inspired techniques, his

guitar work alone would be worth the trip.

Secondly, is his soulful singing style. Eddy has a raw spiritual energy that he lets loose when he sings. At times it is as subtle and meek as a little cricket, and at other times it is as ferocious and loud as a lion's roar!

When he combines his voice and guitar you get the third factor, which is the magic. His music has a way of making you feel safe and secure. Your heart will effortlessly open as the waves of positive spiritual energy wash over you. And when it comes to an end you will feel like you just returned from an incredible journey.

So to sum it all up, Eddy is a very welcome addition to the yoga community. Even if you don't do yoga, and aren't into kirtan, you should still go and see Eddy Nataraj simply because he is an extremely talented musician and a very entertaining performer.

Very soon he will be Daddy Nataraj as he has a baby daughter due in March.
